product overview

Cosmopolitan is an environment within a workplace. Characterized by a unique upgraded system of segmented and monolithic tiles and streamlined furniture, Cosmopolitan caters to evolving spatial relationships and the modular needs of modern business.

Cosmopolitan's tiles are stackable and are offered in a variety of fabrics and finishes to complement any space.

The hinged access door discreetly conceals electrical wires, opens easily with one hand and stays open while access is required.

Durable laminate worksurfaces in a variety of shapes offer flexibility in space planning and are available in solids, patterns and wood grains with matching vinyl edge trims.

A selection of accessories round out the line, including: whiteboards, pencil drawers, task lighting, paper trays, pencil holders and more.

pedestals

All pedestal drawers are outfitted with full extension slides. Drawers can be easily removed by releasing the small catches on either side of the slide. Pedestals come standard with locks. One lock will lock both file drawers in a file/file pedestal and one box drawer and the file drawer in the box/box/file pedestal. File drawers will accommodate legal or letter sized documents.

freestanding storage and combo cabinets

Various combination filing and storage units provide a place to store personal items and documents to suit any individual's needs.

Cabinets are offered in a variety of solid, pattern and wood grain laminates and are available with or without doors. Cabinets with doors include locks.

default vinyl color selections

Each laminate comes with matching vinyl trim color unless otherwise specified on the purchase order. Refer to the laminate finish card for details.

accessories

Computer accessories include flat screen monitor arms, articulating keyboard trays and CPU holders.

Heavy duty flat screen monitor arms adjust to the user while storing wire within the arm. The monitor arm mounting plate meets VESA standards to accommodate most monitors. Monitor arms can be grommet or clamp mounted to the worksurface. Articulating and retractable keyboard trays and mobile or underdesk mounted CPU holders complete the workstation.

handle details

Six handle options are available in a brushed nickel finish. Melbourne is the standard handle option unless otherwise specified on your purchase order. Handles are five inches in length.

variable height panel combinations

Cosmopolitan offers the flexibility of 90, 180, 120, and 135 degree connections at varying heights. Illustrated below are a few connection possibilities for Cosmopolitan panel frames.

maximum span of panels

When specifying Cosmopolitan, it is important to be mindful of the width that panels are required to span. The following examples illustrate the maximum width that panels can span before they need to be supported by a return panel or wall.

Maximum Span of Panels

electrical cable length calculation

Use the following diagrams to calculate baseline and belt-line cabling requirements.

handle options

Caution

Load Bottom Drawer First

- ◇ Operate one drawer at a time
- ◇ Units may tip if loaded incorrectly
- ◇ Units should be attached to a wall or other furniture to reduce tipping hazard
- ◇ Always load the heaviest files in the bottom drawer

Heavy Load

- ◇ Some products must be anchored to wall to ensure stability & safety.
- ◇ It is the owner and installers responsibility to ensure that the wall type and construction is of sufficient strength to carry the loads of any wall mounted products and their contents.
- ◇ Failure of the wall and anchors to support all imposed loads may result in property damage and/or personal injury.
- ◇ Tayco can provide size and empty weight of its products only. As wall blocking is considered a building construction process, Tayco cannot provide recommendations in this respect and cannot be responsible for damage or injury that may occur as a result of improper installation and/or blocking.

Instability Hazard

Mobile items on casters such as flip top, personal and movable tables of any type and storage items of any type may present an instability hazard if not secured correctly while in use or in storage. Flip top tables or training tables of any type, are inherently more unstable when folded. Tayco provides the following guidelines & warnings when using mobile products:

- ◇ Lock casters immediately after moving. Do not leave the casters unlocked when in use or in storage.
- ◇ Motion may increase the instability of any item with casters. If the wheels hit an obstruction the table's forward momentum often causes overturn, especially if the item is not equipped with wheel extensions. Exercise strong caution while moving these items.
- ◇ Use caution when abrupt level changes in the floor are present (such as a doorway or room threshold) as caster failure or tipping may result.
- ◇ Do not stand, sit or lean on mobile items for support. They are not intended for this use and personal injury or property damage may result.
- ◇ Mobile units that feature height adjustable elements must be lowered to the minimum compressed height when moving to prevent instability. It is also recommended the user remove all computer equipment or other accessories to prevent possible weight imbalance or damage to equipment.
- ◇ Failure to follow the guidelines above may result in property damage or personal injury.

Capability: single panel

Capability: 1 hole

Capability: 54-inch countertop

What's Included:

Panel frame with countertop capability, metal base raceway, metal to metal connection hardware.

How to Specify:

Specify panel trim finish.

Specify this item when a 37-inch high or 45-inch high panel with countertop capabilities is required, but an electrical access door is not needed.

When a 54-inch countertop is supported by a 30-inch wide panel and a 24-inch wide panel, the hole in the 30-inch panel will be located 6 inches away from the end of the panel. When two 30-inch wide panels are used to support a 54-inch wide countertop, the holes will be located 9 inches away from the end of the panel. A 60-inch panel has two holes located 9 inches away from the ends of the panel to accommodate 54-inch wide countertops.

The color of the raceway defaults to the color of the top trim when a metal color is specified.

Notes:

An 8 wire, 4 circuit electrical system is available at the base-line. For belt-line, specify the panel frame with flip-up capabilities [page 26](#).

Power and communications November be run into the panel frame using either a power pole or an electrical harness. See the electrics, communication, and lighting section for details.

2 holes are used when a single panel frame is supporting a countertop of the same width.

1 hole, 6 inches away from the end of the panel frame is used when two panels are supporting a countertop equal to the sum of their widths.

1 hole, 9 inches away from the end of the panel frame is used when two 30-inch wide panels are supporting a 54-inch countertop.

The metal frame is only available in black.

What's Included:

Extended Corner with curved front, grommets (48-inch worksurfaces include one grommet, 54-inch worksurfaces and above include two grommets).

Notes:

Grain direction is indicated in the above illustration.

Worksurfaces 54-inches and longer require a horizontal surface support (CH00), which must be specified separately.

How To Specify:

Specify laminate color.

The straight worksurface with curved end must be specified as left or right. When the straight end is specified, the handed end will be longer. When the curved end is specified, the handed end will be longer and curved.

The worksurface trim color will default to match the laminate color unless otherwise specified, see the laminate finish card for details.

Edge profile must be specified for 1.5-inch thick worksurfaces.

Keyboard tray can be mounted to this worksurface. Refer to the Accessories section [on page 166](#) for details.

What's Included:

Cantilever Arm, installation hardware.

How to Specify:

Cantilever arms are available only in black.

Options:

size	16, 22	
position	R right	L left

Notes:

The cantilever arm mounts to the panel frame to support worksurfaces.

Worksurfaces 24 inches and greater require the 22-inch cantilever to be used.

What's Included:

Universal Bracket, installation hardware.

How to Specify:

Specify right or left hand according to the position of the worksurface.

The universal bracket is available only in black.

Options:

hand	R right	L left
------	----------------	---------------

Notes:

The universal bracket is primarily used for end or side corner support and must be used in conjunction with other primary supports, such as gables, cantilever arms, or single posts.

How to Specify:

Specify metal finish. See the metal finish card for details.

Options:

finish metal finish colors

Notes:

The single post is 28-inch in height and includes an integral leveler that provides a 3-inch levelling range.

This item should be used together with panel-mounted worksurface supports to support semi-suspended worksurfaces.
